

Stephen T. Neal Partner

Steve Neal has extensive experience in all aspects of patent law, including patent preparation and prosecution; patentability, validity, infringement, and due diligence opinions; strategic patent portfolio development and management; and patent litigation. He also has experience with copyright and trademark matters, having successfully argued trademark matters in the Northern District of California. He has technical expertise in the areas of electrical engineering, computer engineering, computer software, and mechanical engineering.

Steve's particular technical expertise covers a variety of highly competitive technologies, including microprocessors; telecommunications; online commerce; image processing; food processing; artificial intelligence; bone and joint replacement devices; power management; and interactive entertainment.

Prior to joining Prass, LLP, Steve was an associate of the San Jose, CA office of Kenyon & Kenyon, and an associate of the Sunnyvale, CA office of Blakely, Sokoloff, Taylor, and Zafman.

Prior to his legal career, Steve worked as a software engineer for Neural Applications Corporation, where he was involved in the development of an intelligent Internet ad-targeting software.
